This ebook explains the mysteries surrounding the coiled serpent power within us all and provides practical instructions for how to work with her. Within these pages, you will learn: How Kundalini fits into the subtle body system of channels, energies, and chakras. The ideas behind Kundalini yoga, and how they are directly relevant to your own experience in the here and now. How to recognize a Kundalini emergency, and what to do if youve been overwhelmed by one. How Kundalini relates to yoga. Practical exercises for bringing the subtle body into equilibrium and encouraging Kundalini to rise up through the chakras. Kundalini awakening is a reality that many people have experienced in the past and many experience today much to their joy, or dismay. It is an experiential fact, and hence a real possibility for the practical seeker. The aim of this book is to provide an overview of Kundalini and the practices for arousing her, based on tried and true techniques practiced by yogis for centuries.
