

My Little One : A Baby Journal from Becky Kelly

First words...first steps...first haircut...first Christmas...the memorable events stack up quickly in a baby's first year. My Little One, a baby journal created by Becky Kelly, gives parents a beautiful and organized place to safeguard all those memories too precious to forget. The first 2/3rds of the journal includes thought-starter prompts like Favorite toys, Things that make you happy, and Dreams we have for you. There's also a beautifully illustrated family tree, room for announcements and mementos, and plenty of places for pictures of the little one. A tabbed section at the back of the book provides lined pages for recording other memories from the silly to the sublime. Graced throughout by Becky's tender and touching illustrations, this keepsake, casebound book that features a concealed wire-o binding to make journaling easy, will be a pleasure to journal in, a delight to share with friends and family, and the perfect gift for parents-to-be.
