

Death Is the Daybreak: The Discovery of Alpha Brainwaves

Life is grand. I know that it is grand. That it never ends and never could. What if I were to tell you that I have been beyond the veil of death and that it is not unknown or scary even. I will tell you that it is familiar, beautiful, everything you have dared to believe, and so much more I have discovered a hollow in my mind a place where the universe exists, and where loved ones who have passed through the veil of death are still very much alive. This place awaits us all not just the chosen few, but all, regardless of what we have accomplished in this lifetime. Journey with me to my mind's hollow. Follow me there. I will show you what wonders await you! I will guide you to your own place of refuge, somewhere in the recesses of your own subconscious.
