

The 20% Solution

The Authors experience with hundreds of entities over 50 years has demonstrated that cost savings in excess of 35% of MROP spending are obtainable without significant investment or risk. Applied to the estimated annual spend of \$450 billion to \$500 billion in the U.S. for MROP products, this equates to an astounding potential cost savings of \$150 billion or more across the American economy. The 20% Solution shows in easy-to-absorb detail how to analyze, identify and obtain these savings within your organization.
