

Reconciliation and Religio-political Non-conformism in Zimbabwe (Religion in Modern Africa)

Religio-political organisations in Zimbabwe play an important role in advocating democratisation and reconciliation, against acquiescent, silenced or co-opted mainstream churches. Reconciliation and Religio-political Non-conformism in Zimbabwe analyses activities of religious organisations that deviate from the position of mainline churches and the political elites with regard to religious participation in political matters, against a background of political conflict and violence. Drawing on detailed case studies of the Zimbabwe Christian Alliance (ZCA), Churches in Manicaland (CiM) and Grace to Heal (GtH), this book provocatively argues that in the face of an unsatisfactory religious and political culture, religio-political non-conformists emerge seeking to introduce a new ethos even in the face of negative sanctions from dominant religious and political systems.
