

## The Birth of the Chocolate City: Life in Georgian York

One of the great names in chocolate history, Rowntrees, evolved from the humble retail beginnings of Mary Tuke, eighteenth-century chocolate queen. The book explores how she was formative in shaping modern York as a city of confectionery manufacture, a city with a broader history in this industry than any other city in the UK. York emerged as the epicenter of an empire of competing chocolate kings. Strevens also insightfully reveals the impact that the development of York's confectionary production had on the lives of the rich, the poor and the middling sort, exploring growing social trends in the social capital of the North such as chocolate and coffee houses, and the gin craze. This is an accessible and at times wry exploration of eighteenth-century York, vividly bringing to life the sumptuous splendors and profound murkiness of the city at the time of its commercial emergence as Chocolate City. Each chapter develops the detailed picture of what it must have been like to live in this city at the inception of York's most scrumptious of trades.
