Bit Literacy offers a solution to email overload, media overload, and other kinds of information overload. The daily flood of e-mail, multiple todo lists, a cluttered desktop, documents in various file formats, and the constant distraction of cell phones are all problems that people desperately need help with. More than a quick fix or another how-to guide, Bit Literacy offers an entirely new way of gaining productivity, and lowering stress, that users at any level of expertise can put into action right away. Mark Hurst - who has reached hundreds of thousands of readers through his Good Experience blog and Uncle Mark guides, has revealed the way to survive, and thrive, in the digital age: Let the bits go.
