

Overcome Fear of Death Ocean Wave Subliminal Cd (Self Help)

This Subliminal Cd is intended to help you achieve your goal using positive affirmations that are directed to your subconscious mind. Each subliminal recording targets your subconscious and contains positive reinforcement via spoken subliminal messages that are inaudible to the conscious. All you can consciously hear is the ocean waves track. Our subliminal CDs are created by certified hypnotherapists using binaural beats, brain wave entrainment and neurolinguistic programming (NLP). What makes this CD so special? Subliminal means that your conscious mind will be unaware of the suggestions as they will be directed entirely to your subconscious mind. Subliminal is mixed with the gentle sound of nature to carry the suggestions directly to your subconscious mind. Consciously you will not hear the words, but your subconscious will. Because subliminal doesn't require your attention, you may find it even more effective than self-hypnosis CDs. Your subconscious will accept the changes after a while. Ocean Wave background can not be used while driving or operating machinery. Product Features: CD with Nature Sounds include one track Ocean Waves and Subliminal between 50-60 minutes and one track silent subliminal 10-12 minutes. No audible speech, this is not a Hypnosis CD - it is a Subliminal CD, so the spoken words are hidden by frequency (under the ocean sound). Final, silent track can be used anywhere. There are no audible sounds to be heard by your conscious mind. Digitally mastered using brain wave generator, new technology for filtering frequencies of each channel. Affirmations printed on the CD cover.
