

Spiritual CPR: Reviving A Flat-Lined Generation

If you could bring life to someone who was dead or dying would you? There are many books that explain how to share faith and other books tell us what to share with people, but few books explore the why. What the church needs is a compelling why to get out of their comfort zone and change the world with the gospel. The church, for centuries, has used Matthew 28:19-20, Go and make disciples - baptize - and teach as the clarion call of the church to tell the world about Jesus. Christians, as a community, seem not to know the why of evangelism. They see evangelism as just digging another hole. They are not told that each thrust of the shovel digs deeper into a ground soaked with an eternal water: an eternal well-spring of true life for the non-believer and a virtual fountain of youth for the believer who shares his faith. The purpose of this book is to show that there is an inescapable connection between those who share their faith and those who experience complete joy. Spiritual CPR will help Christians reAlize that the sharing of their faith produces a spiritually abundant life.
