

Mrs. Poysers Bantam Cock (and other idle thoughts).

Have you ever wondered what your husband is thinking as he hands you the Christmas tree balls or dresses up for a night out? What goes through his mind as he painstakingly positions his comb-over? Or reads about the latest telephone technology? Maybe it could be too much information - after all, you've managed to put up with him thus far. However, if you want a good laugh and an insight into the wheezing, clunking and rusty cogs that make up a baby boomer's brain, then this book is a must-read. And it's not just for you girls. How many of us blokes have come to the conclusion that we're living in a land of one? That we're misunderstood and not fully appreciated. Our talents, wit, boyish charms and robust build seem to go completely unnoticed. Apart from brightening up an otherwise boring day, this book will, at the very least, allow you to say, See. It's not just me. Contents include: fashion, greed, technology, marriage, Christmas, flying and observations on life. All the biggies.
