

## Fifteen Going On Grown Up

Making a fool of yourself in front of the boy you really like, being taunted by the popular girls and going through trials and tribulations with your best friends are all teenage rites of passage, and things?Hally?Mackeller, a young girl, is going through in Fifteen Going on Grown?Up. Hally faces all the ups and downs of teen life with her two best friends, Clia and Corrinne, dealing with her own emotions as first kisses evolve into real teenage sexual feelings. At the beginning of the summer holidays, Hally meets a boy called?Wes, with whom she nervously embarks on her first relationship, despite him being three and a half years older than her. Theyve been going out for a year when Hally finds out a devastating secret, and other traumatic, painful and sad experiences further test Hallys emotional maturity and strength. Reminiscent of coming-of-age authors like Meg Cabot,?Karen McCombie and Judy Blume, Fifteen Going On Grown Up will resonate with teenage girls who are worried about their appearance, and their first kiss.
