

Going round the frog and toad (The truth, the half-truth and nothing like the truth Book 1)

This is an enlightened and humorous study of Frogs and Toads, comparing their lives with that of us humans. It highlights similarities we have all experienced and characters, some of them slimy we have all met at sometime. Inevitably it leads to adult themes and a language that adequately describes these experiences. The book introduces a series that reflects the humorous side of life of other people in other countries.
