

How To Roast Delicious Coffee At Home: With Everyday Household Items

For a coffee lover, drinking a cup of rich, flavorful coffee is one of life's greatest pleasures. Specialty coffee, like a fine chocolate or wine, is a terrific indulgence. From the aroma, to the temperature, to the richly varied flavor profiles, great coffee can provide moments of pure, sophisticated bliss. And the caffeine content helps people all over the world wake up each morning and get moving into their daily routines. While many of your friends pay for roasted and ground coffee or spend dollars a day at the specialty coffee shops, you can quickly and easily learn how to roast and grind your own delightful coffee. And you don't have to pay a small fortune to be able to do it yourself. You just need to have the right combination of your favorite beans, a roaster (in this book we will focus on using an air popcorn popper), a grinder, your favorite coffee maker, and a few common household items. These items, plus a bit of patience and experimentation, can result in an EXCELLENT cup of coffee comparable to the specialty shops but at a fraction of the cost. For many, home roasting coffee is an absolute labor of love. There is also nothing quite as satisfying as roasting your own coffee at home. The number of variables are high which makes the flavor possibilities almost endless. And frankly, the time spent roasting coffee can be very cathartic. This book cuts-to-the-chase and will help you roast your own delicious coffee without having to spend a ton of time learning the process!
