

## Sure Footings

Suppose we are standing on top of a high hill overlooking the beautiful San Francisco Bay Area at night. Below us, the lights of traffic are moving constantly. Why? Why all the hubbub? What are all those human beings seeking?

Sure Footings, Chapter 1 Maybe you are seeking, as well. Within these pages you will find a solid road map designed to give you the vital thought processes needed to make sound, rational, and above all, ethical decisions in today's complex world. Filled with classic Aristotelian methods, and sprinkled with a host of examples, Fr. Frank Nouza, OP provides a highly readable book, much in the style of Norman Vincent Peale. Enjoy, and discover your sure footing for today!
