

## Step Forward 2 Multilevel Activity Book

Step Forward is the best-selling standards-based, four-skills course that improves student outcomes by integrating language instruction into real-life contexts. Designed to build workplace skills, the vocabulary in Step Forward is based on the vocabulary of the Oxford Picture Dictionary - providing easy supplementing and a rich, integrated instructional experience. A consistent unit sequence includes vocabulary, life stories, grammar, everyday conversation and real-life reading, carefully developing learners skills, while a transparent lesson structure makes the text accessible to learners, minimizing preparation time. Strong vocabulary and grammar strands provide learners with the tools they need to achieve civics, workplace, life-skills and academic competencies. All Step Forward program components support multilevel instruction. Varied instructional strategies and clear identification of objectives contribute to learner persistence and a variety of assessment tools allow teachers and learners to monitor progress.
