

I Survived A Cult: Personal Glimpses Of An Exodus

People have known these things for years, what does it hurt to believe them anyway? This single question led to a difficult journey of self-examination. It is a journey that is all part of an exodus away from one of many doomsday cults. You are invited to take a personal tour through the inside of one such cult, capturing glimpses into the people, the places, and the experiences found inside. I survived a cult. Its been an exciting journey, and will continue to be one. Ive met many new friends, seen some new faces, and have started a new life with new possibilities. New leaders are stepping forward to carry the torches for those of us who began the journey together, and when those leaders grow tired, others will continue.
