

## The Korean War (Leather-bound library of military history)

On 25 June 1950, the invasion of South Korea by the communist north launched one of the bloodiest and most devastating conflicts of this century. The seemingly limitless power of the Chinese-backed North was thrown against the ferocious firepower of the UN-backed South in a war that can be seen today as the stark prelude to Vietnam. This study draws on first-hand accounts of those who fought on both sides to produce this reassessment of the Korean War.
