

The Way of the Animal Powers (The Historical Atlas of World Mythology, Vol. 1)

The volume itself is a consummate example of the art of bookmaking. Campbell's scholarly and readable text is integrated throughout with a profusion of color plates, specially-commissioned full-color maps, outstanding black and white photographs, unique drawings, and numerous illuminating charts. Drawing on cultural and art history, as well as on anthropology, ethnology, archaeology, paleontology, and linguistics, THE WAY OF THE ANIMAL POWERS will be indispensable to all those interested in mythology, comparative religion, history, and the study of man.
