Biography I graduated from Lamar University in 2004 with a degree in General Studies my sub majors were Health Kinesology and Criminal Justice. My basketball coaching career starting at the student assistant and team manager for Lamar University in Beaumont Texas. I am a certified Physical Education teacher in the state of Texas. I been coaching and teaching for eight years. My first year working at with Lamar University Basketball was for Mike Dean He has coached three different division 1 schools to the NCAA Tournament (Siena, Marquette, Lamar). His Siena team upset Stanford in the NCAA Tournament. Mike Deane is hard nose coach whos preparation and attention to detail is something that I always admired in him. Mike has produced two NBA products in his career (both at Marquette: Chris Crawford and Amal McCaskill). Mike also recruited Dwyane Wade at Marquette, but left the program a year before Wade came to Marquette. I learned many things from him that help cultivate the MSRAG. My final year I worked with a the legend of scoring 100 points a game Billy Tubbs. I remember him showing films of his Oklahoma teams and TCU that put up big numbers in the college game. In 31 years of coaching, Tubbs compiled a 641-340 (.653) career record, including a 121-89 record in seven years at Lamar. He guided 12 teams to NCAA Tournament appearances, six National Invitation Tournament appearances, eight conference championships, three conference tournament championships and 18 20-win seasons. His 641 wins ranks 34th all-time in NCAA history. While at Oklahoma, Tubbs guided the Sooners to runner-up finishes in the NCAA Tournament (1988) and the National Invitation Tournament (1991). Basketball Weekly named Tubbs National Coach of the Year in 1983 and 1985. Although I learned a lot from both

coaches, the MSRAG is a brain child of all the basketball information that been put into my head over the years. I played point guard in high school and I what I would call my self a true point guard. I believe point guards are the best coaches because they understand the team aspect of the game. Most people confuse a coaches coaching worth on his playing career. To be a good coach you have to have continued knowledge of the game, the ability to teach the game, an eye to recognize where mistakes are being made and finally confidence to believe in what your teaching. The teaching aspect is a lost art. My college teaching classes have taught me a lot on how to reach all types of learners. Coaching and teaching sports require coaches to be able to reach all types of learners. Visual, Audial, learning styles are very important in sports.
