

Treasures from the Book of Mormon -- Volume One

This four volume work, which was originally created as a university course, is a whole new approach to an advanced study of the Book of Mormon. In a sense, it is a private tutoring course. If the reader will concentrate on one verse at a time, drain the essential message from it, read any background material provided in the book by W. Cleon Skousen, and then apply the verse to his or her own life, they will be richly blessed. By this means, the reader will have a chance to absorb the message far more deeply and make the Book of Mormon a vital part of daily living. These books are easy to read and have proven highly popular with seminary students and those preparing for missions. They are also used as a family home evening course of study. Volume One covers 1 Nephi 1 to Jacob 7. Fully illustrated. Footnotes linked within the text. Complete table of contents.
