

# Why the Holocaust Happened : Its Religious Cause & Scholarly Cover-Up

The Bible is history told as religion tells it. Why The Holocaust Happened is history told as science tells it. No longer is the challenge to the religious account just Copernicus and Galileo--the Bible got the cosmology wrong. No longer is the challenge to the religious account of Darwin and Mendel--the Bible got the prehistory (i.e., evolution) wrong. Now it is history itself that is at stake; the final fig leaf covering the old myth is ripped away; and what stands exposed this time is rape. Peoples minds have been raped by a false historical account; and now we know why it lied, and that the Holocaust was the result.
