

When I Met Food: Living the American Restaurant Dream

Kathy Sidells earliest memories bring her back to food. At age five she was taken with her grandmothers artistry in the kitchen, and even more so by the big family meals shared on the front porch of their seaside home. Though raised among foodies - her mother, a talented home entertainer; her banker father who single-handedly is credited for building the restaurant business in Boston; and her sister, now a chef and restaurateur - Kathys route to food was not as linear. Her early life as a film producer developed her love for story, themes, and setting. But by age 47, she found herself drawn back to food and the risk of restaurant life. When I Met Food chronicles this adventure, from how she selected her first location to the careful branding decisions required to build a highly successful restaurant enterprise in metropolitan Boston. In this engaging book, Kathy shares her business savvy peppered with encounters with influential people and even favorite recipes for the aspiring chef.
